

The background of the image features three distinct pendant light fixtures. On the left, a black, dome-shaped lampshade with a brass-colored top ring hangs from a black cord. In the center, a simple, clear incandescent bulb is encased in a cylindrical wooden holder, also suspended by a black cord. On the right, a bulb is protected by a wire mesh cage with a wooden top ring, hanging from a black cord. The wall behind them is a warm, textured brown, and the overall lighting is soft and warm.
